

TUITION

Thursday Only - \$79

Friday Only - \$99

Special Combo Rate - \$129

ONLINE REGISTRATION:

Attendees must sign in before program starts & after breaks where applicable to receive attendance certification.

CANCELLATION:

100% refund before May 5, 2024

50% refund before May 12, 2024

No refund after May 13, 2024

Goals & Objectives

- Review concepts in clinical dermatology and pathological implications via case studies.
- Review the many theories in podiatric biomechanics comparing their differences and similarities to come up with a more unified approach.
- Understand basic concepts and complications in internal fixation.
- Understand and review management of chronic pain utilizing newer approaches.
- Understand limb salvage for the ischemic and diabetic foot via medications, angioplasties, medications, and surgeries including amputations.
- Review and update wound care utilizing biofilm control debridement and understanding illegal drug use with xylazine as a complicating factor.
- Review concepts in emergency fractures by understanding the importance of fracture blisters.
